

cursive

cursive is an ncurses file browser for GNU/Linux written in pure C.
this is literally the first program I have ever made, and it's always changing.
Use, and certainly install, at your own risk.

Building, Running, and Installing

(in any directory)

```
git clone https://github.com/lijaesela/cursive
```

```
cd cursive
```

```
make
```

```
./cursive
```

to install (root privileges needed):

```
make install
```

Documentation

Man page :3

```
man ./cursive.1
```

or, if installed:

```
man cursive
```
